About M.B.CO.

Madad Bakhsh medical and commercial industries company (M.B.Co.) was established in 1988 to produce disposable medical products. By installing necessary machinery and equipment, it became operational in 1992.

Obtaining the Iranian National Standard and licenses from the Ministry of Health, the company for the first time received ISO 13485 from BSI England, Kiwa Italy, and U.S Cert South Korea.

With the implementation of the GMP 14644 standard in the production process and the integration of experienced individuals with relevant qualifications, along with the presence of a fully equipped microbiology laboratory and sterilization system in various production sections, M.B.Co was able to produce and distribute its products from start to finish in a completely standardized environment.

M.B.Co considers itself a representative of patients and places great importance on the quality of its production processes. It aims to provide high-quality products to consumers consistently.

With 48 years of management and founder's experience, consumer support, continuous customer-centric approach, and dedicated efforts of its staff, the company has been able to serve medical centers for over 35 years.

Vision & Mission

Vision

Madad Bakhsh medical and commercial industries company (M.B.Co.) aims to achieve a greater share of the target market by producing a diverse range of disposable medical devices, maintaining consistent quality, and fostering extensive collaboration with other manufacturers.

Mission

Madad Bakhsh medical and commercial industries company (M.B.Co.) has a mission to address the needs of medical centers by adopting a customer-centric approach and producing high-quality disposable medical products.

Expertise & **Product Innovations**

Madad Bakhsh medical and commercial industries company (M.B.Co.) is capable of producing customized orders of disposable (polymer-based) products for customers while adhering to registered standards.

Quality Assurance

The well-being and health of patients, as well as product quality, hold paramount importance for Madad Bakhsh medical and commercial industries company (M.B.Co.). We meticulously adhere to stringent quality control measures at every stage of the production process to ensure that our machinery aligns with industry standards, and that we use the best raw materials. By employing precise and established testing methods - including biocompatibility tests, toxicity assessment, sterility stability - we continually ensure that our products meet the required standards. This enables consumers to use our products with greater confidence.

Collaboration Request
